1 Introduction

Dear Mr. Steven Weiss:

Stealth Solutions, Inc. (Stealth) is a Virginia-headquartered small business certified by the Small Business Administration (SBA) as an 8(a) company, established in 2014, and recipient of both the GSA MAS and 8(a) STARS III contract vehicles. The company's core competencies revolve around Cloud Implementation & Support, Digital Content & Asset Management (specifically Acquia/Drupal websites), Business Process Assessment, Technical Project Management, and Grants Management Systems Implementation. Notably, Stealth is dedicated to aiding Federal, State, and local government agencies in achieving enhanced performance and operational efficiencies.

One pivotal partnership for Stealth is with Carahsoft Technology Corp, a collaboration that enriches Stealth's capabilities by offering the contractual inclusion of all pertinent Acquia-based cloud/technology licenses. This collaboration ensures comprehensive support for federal agencies' needs within a FedRAMP (Federal Risk and Authorization Management Program) cloud environment. Carahsoft, holding a GSA Multiple Award Schedule (MAS) contract (number: 47QSWA18D008F), is instrumental in facilitating this aspect of Stealth's services.

Stealth has proven instrumental in guiding numerous agencies toward a web-based digital services environment. This guidance encompasses everything from vision development to the implementation of cloud-based solutions tailored to migrate existing services. Additionally, Stealth specializes in enhancing the user experience of government websites, ensuring mobile-friendliness, and compliance with federal standards like Section 508 and adherence to the USWDS (United States Web Design Standards).

The impact of Stealth's expertise is reflected in the successful delivery of notable websites and projects, including:

1. NTIA's primary public website (www.ntia.gov)
2. Broadband USA – a platform supporting the BroadbandUSA program, aimed at expanding broadband access and use nationwide to foster innovation and economic growth.
3. Broadband Technology Opportunities Program (BTOP) website (broadbandusa.ntia.doc.gov)
4. State Broadband Initiative public website (www2.ntia.doc.gov)
5. The Institute for Telecommunication Sciences (ITS) public website (<https://www.its.bldrdoc.gov/>)
6. Federal Government Spectrum Compendium public website (spectrum.gov)

These projects underscore Stealth's pivotal role in advancing digital transformation within the public sector, exemplifying their commitment to cutting-edge technology implementation and user-centric design within the realm of government services.

If required by NIH, Stealth's Drupal team will utilize our capabilities to help support, enhance and further develop your website presence and capabilities.

Stealth Solutions is on the MAS contract vehicle: 47QTCA22D0053

3 Stealth Drupal Website Labor Category Costs

Stealth Solutions as an Acquia partner and Carahsoft reseller, has the expertise and ability to provide the NIH with any level of Drupal implementation, integration, training, and support as may be required to implement this software. Stealth services can be procured from our MAS schedule and are available via the below labor category table:

Labor Category/Service Title	Unit	GSA MAS Price
Business Analyst	Hourly	\$78.19
Application Developer II	Hourly	\$89.59
Systems Analyst	Hourly	\$96.27
Application Developer III	Hourly	\$101.16
Technical Architect I	Hourly	\$105.55
IT Subject Matter Expert	Hourly	\$117.28
Cloud System Administrator I	Hourly	\$121.19
Cloud Project Manager II	Hourly	\$142.69
Cloud Architect I	Hourly	\$154.42
IT Project Manager	Hourly	\$154.42

These MAS Labor Category rates are good for the Base Year. Subsequent years will increase at 2.25%.
