Request for Information

## DOI - IBC PaaS CMS Migration - Market Research

On behalf of the Department of the Interior, GSA is conducting market research to understand capabilities related to providing the below requirement:

DOI requires the services of a Contractor experienced in OpenPublic Drupal and the US Web Design System (USWDS) website design and theming, development and support, usability, accessibility, and website analysis and improvement.

### Responses Due: 11/15/2022 Market Research Notices

**For Multiple Award Schedule (MAS) Only:** Based on the responses submitted to this RFI, the Government reserves the right to issue all future requests for quotes directly to identified sources via email, in accordance with FAR 8.405-3(b)(1)(ii)(B)(2) and/or FAR 8.405-2(c)(3)(iii)(B).

### Company & POC Information:

If you have questions about your GSA contract, you can find your company's information on the [GSA eLibrary](#) page.

**PLEASE NOTE:** A valid email address is required in order to receive a receipt of your response. The requesting Agency's point of contact information will also be sent to this email once the RFI closes.

- ☒ Company Name Stealth Solutions, Inc.
- ☒ GSA Contract Number 47QTCB21D0018
- ☒ POC First Name Rahul
- ☒ POC Last Name Sundrani
- ☒ POC Email Rahul.sundrani@stealth-us.com
- ☒ POC Phone # (571) 230-5642
- ☐ Company Website (URLs only) https://stealth-us.com
- ☐ UEI #: Unique Entity Identifier RCMZNAHAZ7D9
- ☐ CAGE Code 8CSF6

---

**Business Size:**

☒ s - small business

☐ other than small business

**Please select all socio-economic categories that apply to your business.**

**Note:** select as many that apply **OR** if your company does not fall under one of the categories, please select N/A. (Data is validated prior to the reports being issued)

**Socio-economic Indicators Key:**

w - Woman Owned business.

wo - Women Owned Small business (WOSB)

Drupal PaaS CMS Migration  
Request for Information

Is the Statement of Work (SOW) clear? What questions do you have about the procurement?  
What would be your approach to an offer?

*Provide details such as contract start date, current team and composition, transition plan and duration, and clarity on whether the scope includes supporting and maintaining existing Drupal 7 sites while the migration is taking place. Award type anticipated FFP or T&M. Details on Key Personnel roles.*

---

**Technical Question - Short Answer**

*Limited to 300 characters - if more space is needed, please include with your Capabilities Statement.*

Does this SOW address questions bidders may have in order to price it accordingly?

Please address: Licensing costs. Base implementation and configuration costs. Future functionality implementation and configuration costs. Training costs. Operation and support costs. Optional CLINS for integration assistance and identity management assistance.

*Provide proposal instructions. Current customizations, number of assets, infrastructure support responsibility, number of users, average support tickets per month, number of training sessions per month. Roadmap/functionality to be implemented after migration? Anticipated number of resources and type.*

---

**Based on the provided information, would your company submit a quote if this requirement was issued under your GSA Contract?**

*\*If you select "No", be sure to submit any questions or provide any comments to assist the requesting agency in the "Optional Feedback" section below.*

☒ Yes

☐ \*No

---

**Do you provide this service or product commercially?**

☒ Yes

**Reference 2—Department of Commerce, Office of the Secretary, Office of Chief Information Officer – IT Operations and Maintenance**

Customer Name	Department of Commerce, Office of the Secretary, Office of Chief Information Officer
Teaming Member(s)	Stealth Solutions, Bravent
Total Contract Value	\$8.27 million
Period of Performance	06/2016 – Present
Brief Description of Services Provided	The DOC/OCIO, Office of Enterprise Services and Solutions (OESS) is responsible for delivering IT solutions to the Department. Through this project, OCIO/OESS delivers and supports enterprise solutions to the Department. This includes managing solution delivery projects, eliciting and analyzing requirements, architecting, and designing solutions, developing and acquiring solution components, configuring and integrating components, testing solutions, deploying solutions, operating and maintaining solutions, and supporting customers in the use of solutions. The websites developed and maintained in this contract all use Drupal. Also, part of the contract we maintain and enhance are DOC OCIO's SharePoint portals.

**Reference 3—Naval Federal Credit Union Website Content Management**

Customer Name	Navy Federal Credit Union
Teaming Members	Stealth Solutions, REI Systems, Bravent
Total Contract Value	\$1.4 million
Period of Performance	02/2017 – Present
Brief Description of Services Provided	Content Management of Navy Federal Credit Union Website (NFCU), including the convergence of legacy PHP based technology applications to Adobe Content Management Solution, and continuous enhancement as defined by NFCU. Stealth Solutions, through ProTask, migrated legacy content and a digital asset management system for the Navy Federal Credit Union (Navy Federal) using best practices of

#### Reference 3—Naval Federal Credit Union Website Content Management

Technological Convergence. Stealth Solutions supported the implementation of a world-class content and digital asset management system for Navy Federal Credit Union using Adobe Experience Management (AEM). Below are the three key technology convergence implementations in the Navy Federal Credit Union:

- Content Management in Navy Federal Credit Union Website
- Digital Asset Management for Internal and External Files and Images
- Content Management for Navy Federal Credit Union Intranet

## Capability Statement

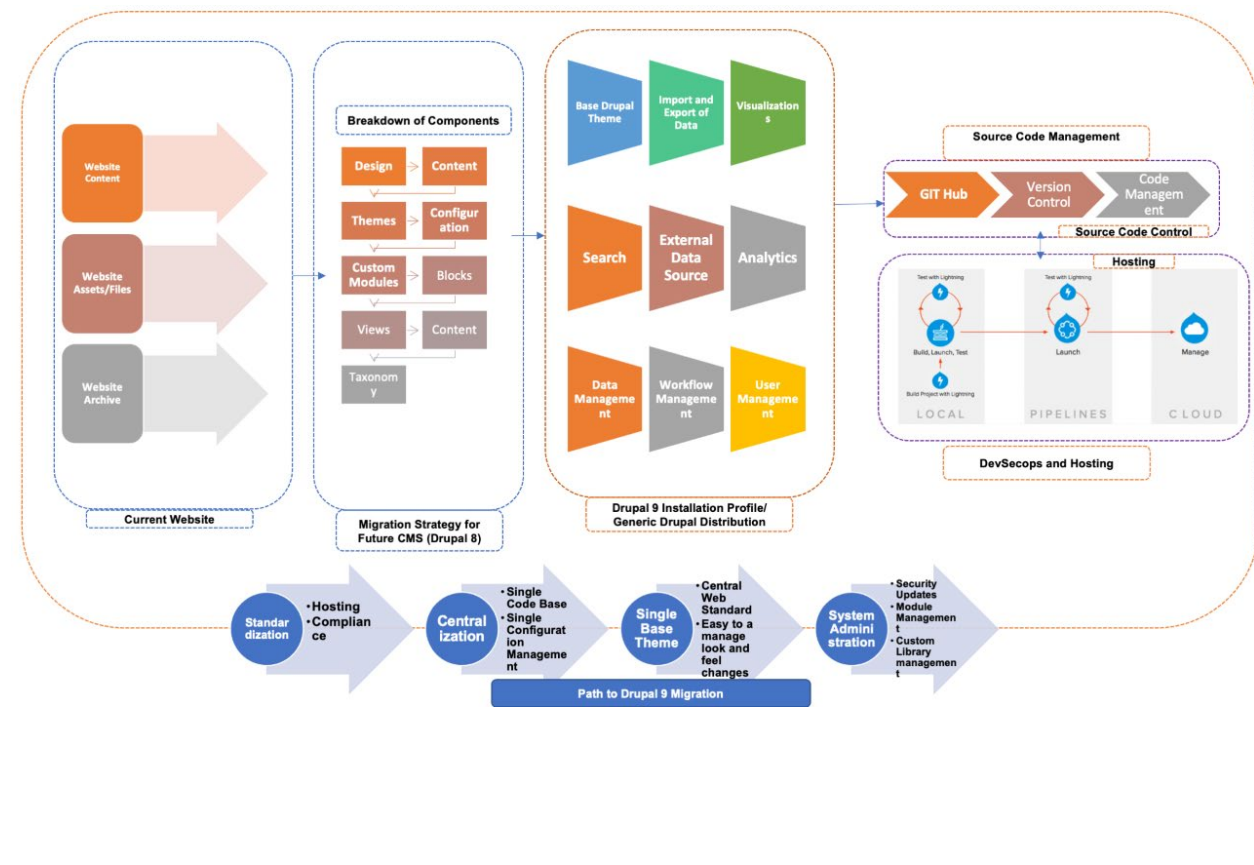

The Stealth Solutions team has experience with migration of sites from Drupal 7 to Drupal 8 and Drupal 9 and with the pain points associated with doing so. We very recently successfully migrated a very large Drupal 7 to Drupal 9 migration for Depart of Commerce. We are currently in the process of migrating 2 large web applications from Drupal 7 to Drupal 9 for GSA. We have a solid understanding of Drupal 7 and Drupal 9 tools, process, techniques, and approaches that we would bring to this project.

Below our Drupal 7 to 9 migration strategy outline. This outline is the culmination of our experience which has been continually improved over multiple Drupal 7 to 9 migrations:

1. Analyze all features of current website.
2. Generalize features common to all pages and subpages. Generalize the Drupal 9 modules and views that will be common.
3. Collect requirements for creating custom modules and views.
4. Create a generic Drupal 9 theme
5. Provide Interface to configure the theme as allowed by the current website, adhering to standard guidelines.
6. Analyze source data of the current website.
7. Configure content types.
8. Configure taxonomy terms.
9. Configure views and other display requirements.
10. Create images and other design elements unique to the site in accordance with USWDS.
11. Configure home page and other configurations as needed.
12. Hosting activities; Set up web server, database server and search setup for QA, staging and production.
13. Data migration through generic scripts.
14. Data validation.
15. Site testing with the newly populated data set.
16. Search indexing and search configuration.
17. Search feature and data download testing.
18. Staging site release.

19. User acceptance testing.
20. Documentation of steps and findings.
21. Production release.

The below image provides a summary of our migration approach.

## AFTER YOU SUBMIT YOUR RESPONSE:

A confirmation email will be sent to the Company POC along with a copy of your completed responses.

## Disclaimer

By submitting your response, you grant the U.S. General Services Administration (GSA) the authority to share your information with other Government entities including Federal, State and Local Governments as well as the right to publish your market research response (including your company name and POC contact information) on public-facing Government websites.
